

A PROJECT REPORT

ON

JOB PORTAL

Submitted in partial fulfillment of the requirements

For the award of the degree of

BACHELOR OF TECHNOLOGY

in Computer Science Engineering

BY

HITI TANEJA 9145193

HARSHIT VERMA 9145210

UNDER THE SUPERVISION OF

Prof. Arko Bagchi

Department of Computer science

Global institute of technology and management

Approved by AICTE, Gov't. Of India & Affiliated to M.D. University, Rohtak

(2015-2019)

CERTIFICATE

This is to certify that the project work entitled

“JOB PORTAL”

is the bonafide work done by

Hiti Taneja 9145193

Harshit Verma 9145210

In the Department of Computer Science and Engineering, Global Institute of Technology and Management, GITM is affiliated to M.D. University in partial fulfillment of the requirements for the award of the degree of Bachelor of Technology in Computer Science and Engineering during 2015-2019.

This work has been carried out under my guidance and supervision.

The results embodied in this project report have not been submitted in any University or Organization for the award of any degree or diploma.

ACKNOWLEDGEMENT

With Candor and Pleasure, we would like to take opportunity to express our sincere thanks and obligation to our esteemed guide of Prof. Arko Bagchi. It is because of his able and mature guidance and co-operation without which it would not have been possible for us to complete our project.

It is our pleasant duty to thank all the staff member of the computer science and Engineering Department who have cooperated in making our project a success.

Finally, we gratefully acknowledge the support, encouragement & patience of our family and friends who extended their help either directly or indirectly.

Thank You for your valuable guidance and kind support.

DECLARATION

I hereby declare that the work presented in this Report entitled “**JOB PORTAL**”, in partial fulfillment of the requirements for the award of degree of Bachelor of Technology in CSE, submitted to Maharshi Dayanand University, Rohtak, is an authentic record of my own work carried out during the period from January, 2019 to June, 2019 under the guidance of Prof. Arko Bagchi, Head of CSE Department, GITM, Farrukhnagar.

Signature of the students:

1. Hiti Taneja
2. Harshit Verma

ABSTRACT

To conduct an interview is a tedious task as it requires planning and managing resources. In doing such tasks on regular interval time, money and human power is wasted. This may also decrease the productivity of the company due to lack of human management resources in appointing the right person to the right job.

To support this situation better and make things work in a more systematic order we use a computerized system in which the profile of the shortlisted candidates is projected on the basis of online test conducted and after the declaration of the result in real time these selected candidates move towards the next process i.e., conduction of online interviews to select a worthy candidate. We can save time and work involved for employing people to the jobs posted.

In our approach, we go beyond approaches that rely on time thresholds and we propose a more robust approach. Online tests can be conducted for the users at a time and all the users will be able to get the results within no time. Transparency in online test result is the key of this approach and all the deserving candidates will get the job it will be necessary for everyone to go through the process of online test.
